

# **DODOMA CHRISTIAN MEDICAL CENTRE TRUST**

## **PLUMBING JOB VACANCY**

The mission of DCMC Trust to deliver sustainable community-based, specialized, and super-specialized healthcare for all through accessible and compassionate healthcare, guided by the love of Jesus Christ.

DCMC Hospital is a Christian Health Ministry owned by the Registered Trustees of Dodoma Christian Medical Center Trust (DCMCT) located at Imagi Hill, Ntyuka Dodoma. Since its establishment it has served thousands of patients as a multispecialty hospital offering quality health care for the people of central Tanzania and beyond and in collaboration with other stakeholders and in line with the Government policies.

DCMC Trust is an equal opportunity employer offering stable and professional working environment with competitive remuneration and benefits. DCMC Hospital invites qualified persons to fill in the position of Plumbing Technician.

### **Job summary:**

The incumbent would be responsible for maintenance of existing systems including the bore holes, the installation of new plumbing systems and repair of plumbing appliances and fixtures. The incumbent must be able to read blueprints and understand building codes to accurately install fixtures and piping. The role includes working on water supply lines, waste disposal systems, and related appliances and fixtures to ensure they are operating correctly and efficiently.

### **Entry Qualifications:**

- Holder of Full Technician Certificate (FTC) majoring in Plumbing, Masonry or Civil Works from recognized training institution or
- VETA Vocational Certificate Grade I OR II in Plumbing and Pipes Fitting.
- Five years of Continuous work experience especially in a healthcare setting

### **Duties and responsibilities:**

- Identifying and carrying out routine, periodical and preventive maintenance on plumbing works and other small civil works;
- Identifying requirements for tools, equipment for various maintenance works;
- Maintaining water facilities in accordance with set standards, regulations, economy and safety;
- Carrying out installation of water facilities whenever required.
- Maintain and repair damaged washers, broken pipes, and clogged drains
- Install underground sanitary, drainage, and water supply piping systems
- Utilize hand tools in fitting of valves, couplings and components for tanks, pumps or other plumbing system
- Dig trenches/install pipes and piping fixtures for water or sewage systems
- Ensure compliance with building codes and set safety standards
- Measure, cut, thread, and assemble pipes to required angles using measurement tools

- Inspect plumbing systems to identify issues and initiate repairs
- Liaise with contractors, pipefitters, and other construction workers to ensure an effective plumbing system.
- Responsible for the installation, modification, maintenance, and repair of plumbing fixtures for drainage and water systems.
- inspect work sites to determine the type and amount of material/equipment required for a plumbing work.
- study blueprints to understand the structure of a water supply or drainage system.
- troubleshoot plumbing fixtures to perform repair or replacement of damaged components.
- perform scheduled maintenance to ensure plumbing equipment are functioning efficiently.
- ensure compliance with relevant building codes, legislations, and policies.
- direct and coordinate the activities of trainee plumbers and plumbing assistants.
- Collaborating with contractors, construction workers, electricians, pipefitters, and steamfitters in installing and repairing plumbing systems.
- Ensuring compliance with building codes and safety standards in all installations and repairs.
